# COMPANY HISTORY

In the years leading up to our company's establishment, dating back to 2016, a dedicated team embarked on a journey through corporate bidding engagements with diverse entities. Their focus spanned a broad spectrum, encompassing the sale of used transportation, electronics, computer peripherals, metals, and other miscellaneous materials. Throughout this period, their dedication to securing successful bids remained unwavering, making them dependable trading partners in the world of corporate bidding.

As their experience grew and a multitude of companies sought services such as transport rentals and essential industrial supplies, the idea of forming a dedicated company emerged. On February 27, 2020, Princess D Industrial Equipment Wholesaling was founded. This marked a pivotal moment in the evolution of their journey, transforming their trading expertise into a comprehensive suite of offerings.

From its inception, the company not only thrived in corporate biddings but also expanded its horizons, extending into the provision of transport rentals and the supply of materials crucial to various industries. This expansion further solidified the company's reputation as a versatile partner capable of meeting diverse business needs, including recycling machinery and block making machinery.
